

Wealshire Community

Please know that all departments here are committed in creating a new way of enjoying our days safely. Due to Covid 19 protocols, we have adapted all activities to comply with all safety regulations. I am very proud and impressed with our Life Enrichment team as we find innovative ways to ensure each resident is being supported. We continue to provide experiences to enhance their daily quality of life. We engage our residents and maintain our philosophy including mind, body and spirit. We are learning so much more about each individual and that is heartwarming. Our calendars are a guideline of what we include in each of our residents days. Many of our interactions are 1:1. We are also engaging in hallway activities such as chair exercises, white board games, hymns and devotions with residents in their doorways. Pam, our music therapist, as well as our other musicians are thriving, sharing their musical talents. Jon, our deacon, continues spreading God's word to all. As weather permits, within all safety guidelines we are getting your loved one outside in the courtyard or on the deck to enjoy spring. Rest assured that we are doing our best to keep your loved ones safe and doing a variety of adapted engaging activities. For Video Call appointments, please email:
